

Wilderness Nest®

EXPANDABLE CAMPERS

THE INSTANT GET-AWAY!

The Wilderness Nest® Tip Top™ camper provides a degree of freedom and comfort never before seen in a pickup truck topper. The Tip Top is a handsome, aerodynamic truck cap that quickly and easily tips open into a pop-up camper in 15 seconds. Simply add a carpet insert kit or mattress package to the back of the truck and you will be able to stand, sit or sleep in comfort. Plus, there's a Wilderness Nest Tip Top size to fit most contemporary pickups on the road today.

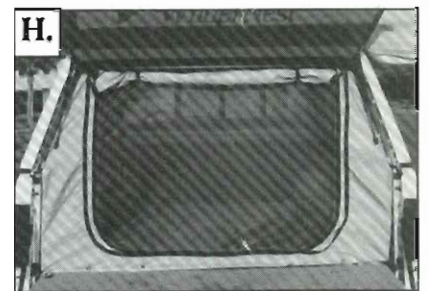

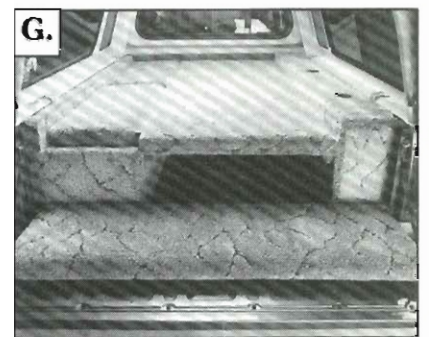

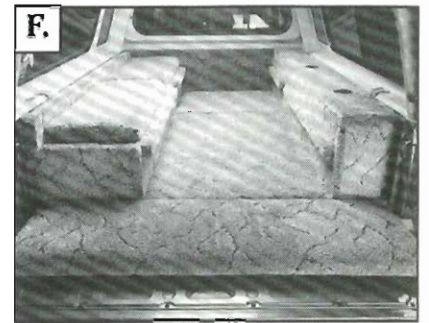

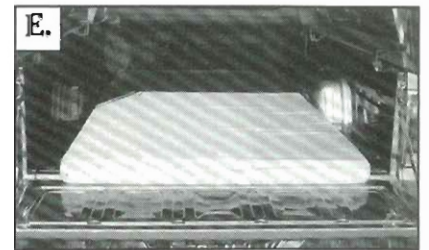

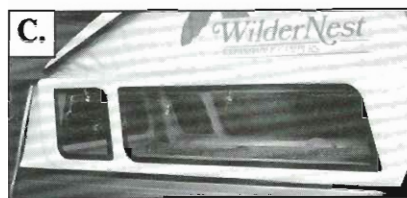

The lightweight design goes anywhere your pickup goes. The steel-reinforced, fiberglass Tip Top camper weighs less than 200 lbs. for compact and 275 lbs. for full size models. With the convenient Wilderness Nest Tip Top, you still have plenty of power to pull your boat, other RV or horse trailer efficiently, on and off road. And the specially reinforced lid will accommodate a variety of sport and utility roof racks.

TIP·TOP™

1-800-432-NEST (6378)

The WilderNest Tip Top is as attractive as it is tough. To open the Tip Top simply unsnap the two fastax buckles holding the tent skirt inside the lid, release the two draw down latches at the rear of the camper and the lid automatically opens on two internal gas props. When you enter through the back opening you'll be amazed to find over six feet of headroom in the rear portion of the truck. When not camping, the Tip Top is as spacious as any quality topper for storing, hauling and cargo protection. The tent skirt tucks tight inside the lid so you get full use of the cargo area and unrestricted visibility out the windows.

A) The tent skirt is made of 8 oz. nylon packcloth, is waterproof and tougher than canvas or vinyl. A hooded half moon shaped window opening is incorporated into the rear of the tent skirt for ventilation. The window opens with a zipper, and is backed with a velcro-bordered, removable no-see-um bug screen. B) The WilderNest Tip Top provides plenty of stand-up space, over 6 feet in the rear of the truck! C) Each Tip Top camper comes with recessed solid side windows. Tempered and dark tinted, these windows provide a sleek, clean look. A front sliding window to the cab is also standard. D) Optional sliding side windows are available for those requiring additional ventilation. Black anodized window frames, dark tinted tempered glass and bug screens come with this package. E) The optional mattress package provides a cost effective way to create a bed area. Three inch foam, covered with waterproof packcloth, and hinged so it can be folded and stored in the front of the truck bed. F) The optional carpeted insert kit contains carpeted and padded bench seats and storage compartments and can be G) Converted into a double bed by sliding the floor cushion across the seat platform. The kit is easily removed when you need the truck bed for hauling. H) The optional tailgate curtain allows you to keep the tailgate down and the rear hatch window up for easy access, without constant opening and closing of the entire rear end. Velcro attachments make the screen easy to install and remove. It's completely bugproof with a zippered storm door. And you can customize your WilderNest Tip Top further by adding other accessories such as roof racks, interior lighting kits and more.

Your WilderNest Tip Top camper and all accessories carry a one year limited warranty against defects in materials and workmanship.
